

## UK TECH RIDER

These spectacular sparkling characters will delight the crowd bursting into dance moves to cast glittering reflections on the surroundings.

A guaranteed eye catcher, visually engaging and fantastic up close they are dazzling, will have the kids in awe and guests lining up for photos.

Perfect for ambient corporate entertainment and public events, they can become part of a parade or mix and mingle through the cocktails at a reception or bring a dance floor to life.

Available as gleaming gents with pipes and canes or glittering cap wearing dancers.

### **Programming: Roving walk-about characters / Meet and greet**

Available for indoors and outdoors: 1 - 4 artists.

Standard sets are 3 x 30min for walkabout / statue / photo, or 3 x 20min for dancing sets (heat), within a 3 hour call time.

Breaks between each set: minimum 15min

*Please note that on hot days or in warm spaces the artists might require more frequent breaks.*

## Requirements

### **Change Room**

Warm and lockable change room as close to the performance area as possible with one large table and a mirror if available.

Please provide drinking water in the dressing room.

For evening events where food is being served, a hot meal is appreciated.

### **Preparation Time**

It takes the artists 20 minutes to get into costume.

As the costumes are heavy and hot the performers are unable to put the costume on much in advance of any scheduled performance time.

### **Set Time**

It helps the artists greatly if a member of staff can let the performers know when the set time is over.

### **Lighting**

Adding lights to the performance area will turn these characters into living Mirror Balls casting spectacular reflections onto the surrounding area.

### **Parking**

Usually we require only one parking spot.

### **Stewarding**

For public performances stewards may be required to accompany the performers for the duration of each set.

### **Weather**

Light drizzle does not affect the performance, however, very heavy rain might require the act to be delayed.
